**Yorkshire & Humber**
**YH ROCU  REGIONAL ORGANISED CRIME UNIT**

National Cyber Security Centre a part of GCHQ   yhrocu.org.uk   @YH_CyberProtect   YorkshireandHumberRCCU   NCA National Crime Agency

YH ROCU is the name for the Yorkshire and Humberside Regional Organised Crime Unit and is a collaboration between police forces in West Yorkshire, South Yorkshire, North Yorkshire and Humberside to tackle serious organised crime that crosses county borders in the region.

## The Protect Team

The protect team consists of DS Shelton Newsham as the protect lead, DC Dean Russell as the protect co-ordinator for the region and Elly Stirling, an intern studying Computer Security and Digital Forensics at Leeds Becketts University. The team have over 30 years' experience in law enforcement.

## Awareness Training Packages

Board Level
- Awareness training covering current threats and mitigation including a baseline vulnerability check, policy and procedure input to ensure you can get your organisation running again following a cyber incident

Staff End User
- Awareness training covering current threats and mitigation affecting end users in the workplace. How to keep yourself safe at work and at home online.

Individual
- Awareness training covering current threats and mitigation for the individual on a personal level keeping them and their families safe online.

We have specific packages covering Social Engineering, Ransomware (Malware) and Phishing if your organisation has been victim of a specific cyber attack we can offer a specific awareness training to mitigate that threat.

## Presentations / Public Speaking

Our protect message is in line with the current guidelines from the National Cyber Security Centre (NCSC). The team are both very experienced in public speaking and are available to speak at a variety of events.

- Customer Events
- Medium / Large Conferences
- Breakfast Clubs

Specific tailored presentations in line with your business needs. We use Prezi software for our presentations so they can be shared and distributed for further insight.

There are a wealth of free resources available online aimed at keeping you safe online at home and at work. We can signpost organisations and individuals to the correct resources to ensure you get the support you require.
